

PLT® - Rescue 230

0575/05

Art no 2000

Description:

Meets the demands of Solas/IMO regulation 74/83, and recognised by Det Norske Veritas, Notified Body No: 0575 (EU-Approval NO: MED-B-2416), and similar organisations in other countries as a line-throwing appliances onboard ships.

Base unit :

The base unit contains a built-in air cylinder for filling of compressed air up to 200/300 bars (2900/4350psi). This is sufficient for 4/6 shots before refilling is necessary. The air cylinder is fitted with standard fittings for diving and BA-equipment for filling of dry clean air from a high-pressure compressor.

Projectiles :

Delivered with four Rescue Projectiles and one Training Projectile. The Rescue Projectiles are made of ABS plastic with aluminium inner tube. The Rescue Projectiles are filled with 240m (263yd) nylon line, and can be re-loaded and re-used. The Training Projectile is made of POM-plastic with a rubber tip. It does not carry the line inside, but a linebox with 120m/5mm (131yd/0.2in) line is enclosed for training.

Loading-device:

Delivered with injector w/handle for reloading the Safety-line into the Rescue projectiles. Simply connect to compressed air 5-10 bars (72-145psi) and the line is easily injected into the projectile.

Technical data:

Shooting range	min 230m (252yd)
Line Strength	min 2000N
Line thickness	3,2mm (0.13in)
Recoil	max 5400N
Flight time	approx. 4 sec

Contents:

1 Art no 1005	PLT® Basic with Air Cylinder
1 Art no 1303	Launching Tube R-230
4 Art no 2101	Projectile Rescue R-230 compl. w/ lines
1 Art no 2200	Loading Device complete
1 Art no 3303	Launching Tube Training
1 Art no 7004	Training Projectile
1 Art no 6201	Linebox w/ 120m/5mm (131yd/0.2in) line (4400N)
1 CD/Users Manual	

THIS MODEL IS TYPE APPROVED IN ACCORDANCE WITH SOLAS/IMO 74/83 DEMANDS. (EC-CERTIFICATE NO: MED-B-2416)
